UNPACKING PSDR: MEET THE SPEAKERS

ROSA ANDERSON

COMPLIANCE & PSDR LEAD

MICHON MAYFIELD, MHA

DIRECTOR OF BUSINESS DEVELOPMENT

PATIENTS FIRST. *ALWAYS.*

LEARNING OBJECTIVES:

- Define Patient Safety Data Reporting (PSDR)
- Explain the specific reporting nuances associated with PSDR
- Explain the importance of the data obtained from PSDR

WHAT IS PSDR?

Patients First. *Always.*

PATIENT SAFETY DATA REPORTING (PSDR)

- QUAD A's proprietary data collection system that enhances quality control measures by quantifying safety data as reported by our accredited facilities
- This mandatory data reporting process fosters clinical excellence by demonstrating the benefits of accreditation and revealing trends that impact patient outcomes
- With data from hundreds of thousands of cases, it forms one of the nation's largest healthcare data repositories

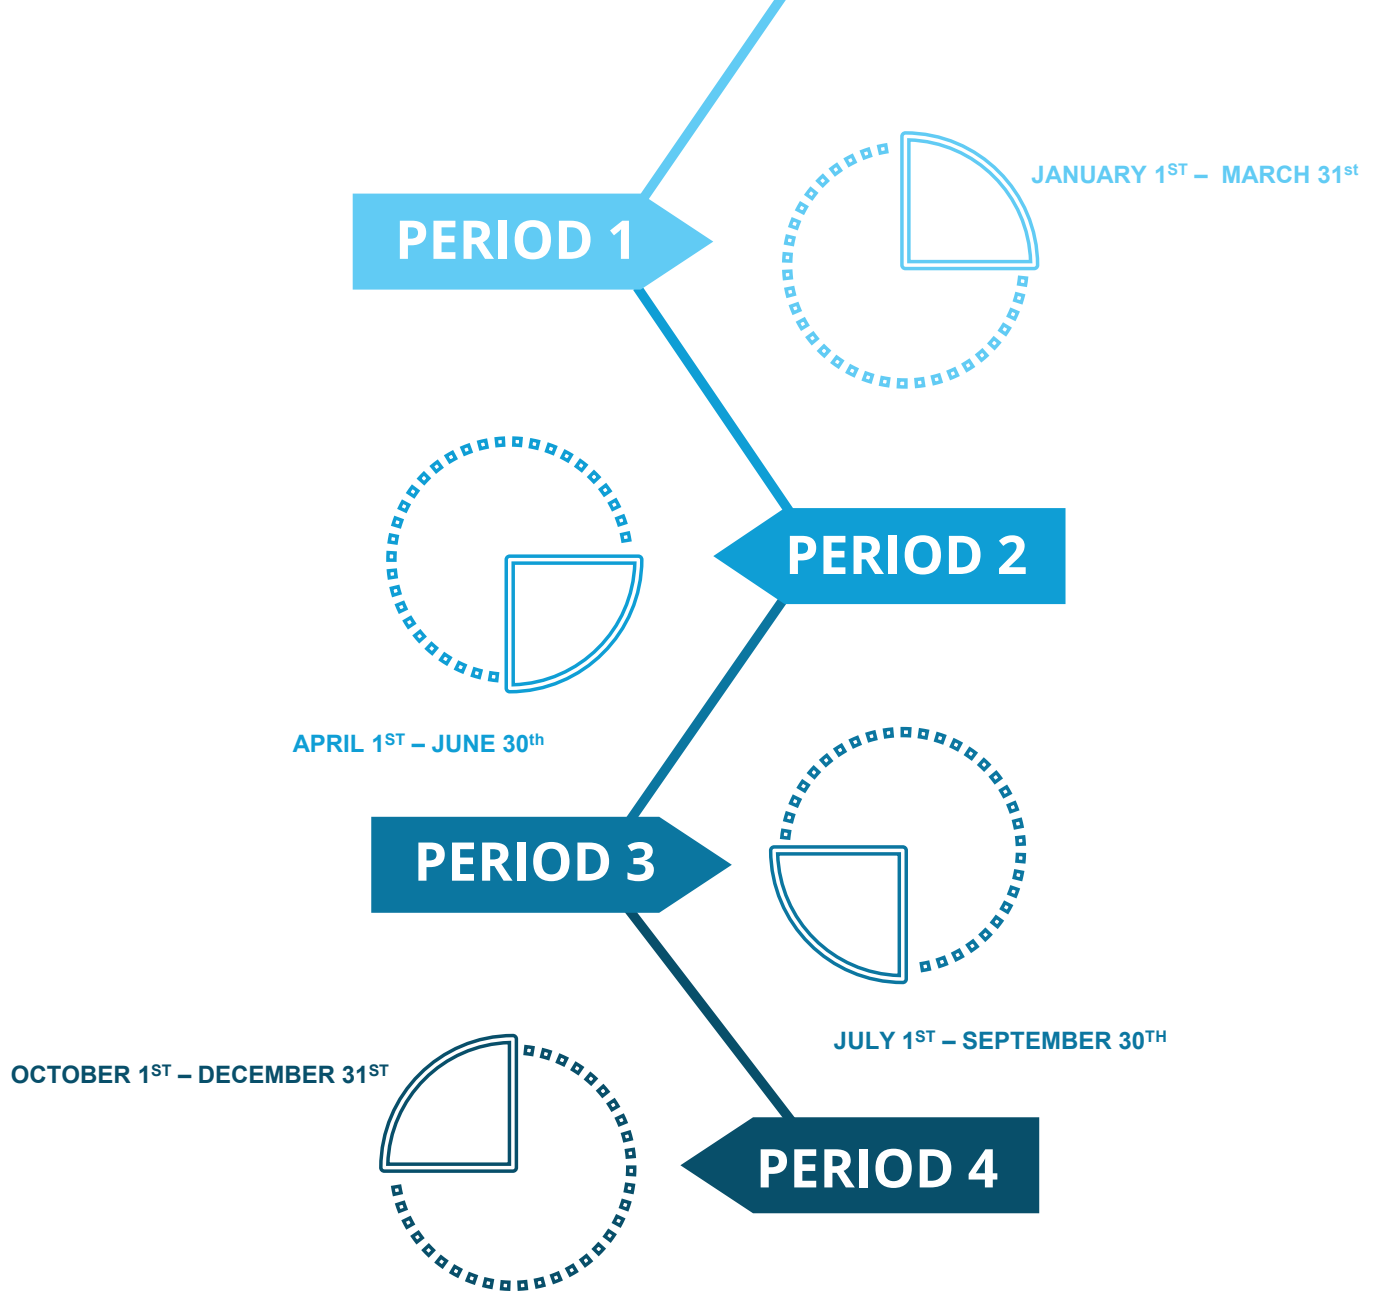

REPORTING SPECIFICS

Patients First. *Always.*

PSDR REPORTING PERIODS

REPORTING PERIOD INFORMATION

PERIOD 1:

January 1st – March 31st

Deadline to Report: April 15th

PERIOD 2:

April 1st – June 30th

Deadline to Report: July 15th

PERIOD 3:

July 1st – September 30th

Deadline to Report: October 15th

PERIOD 4:

October 1st – December 31st

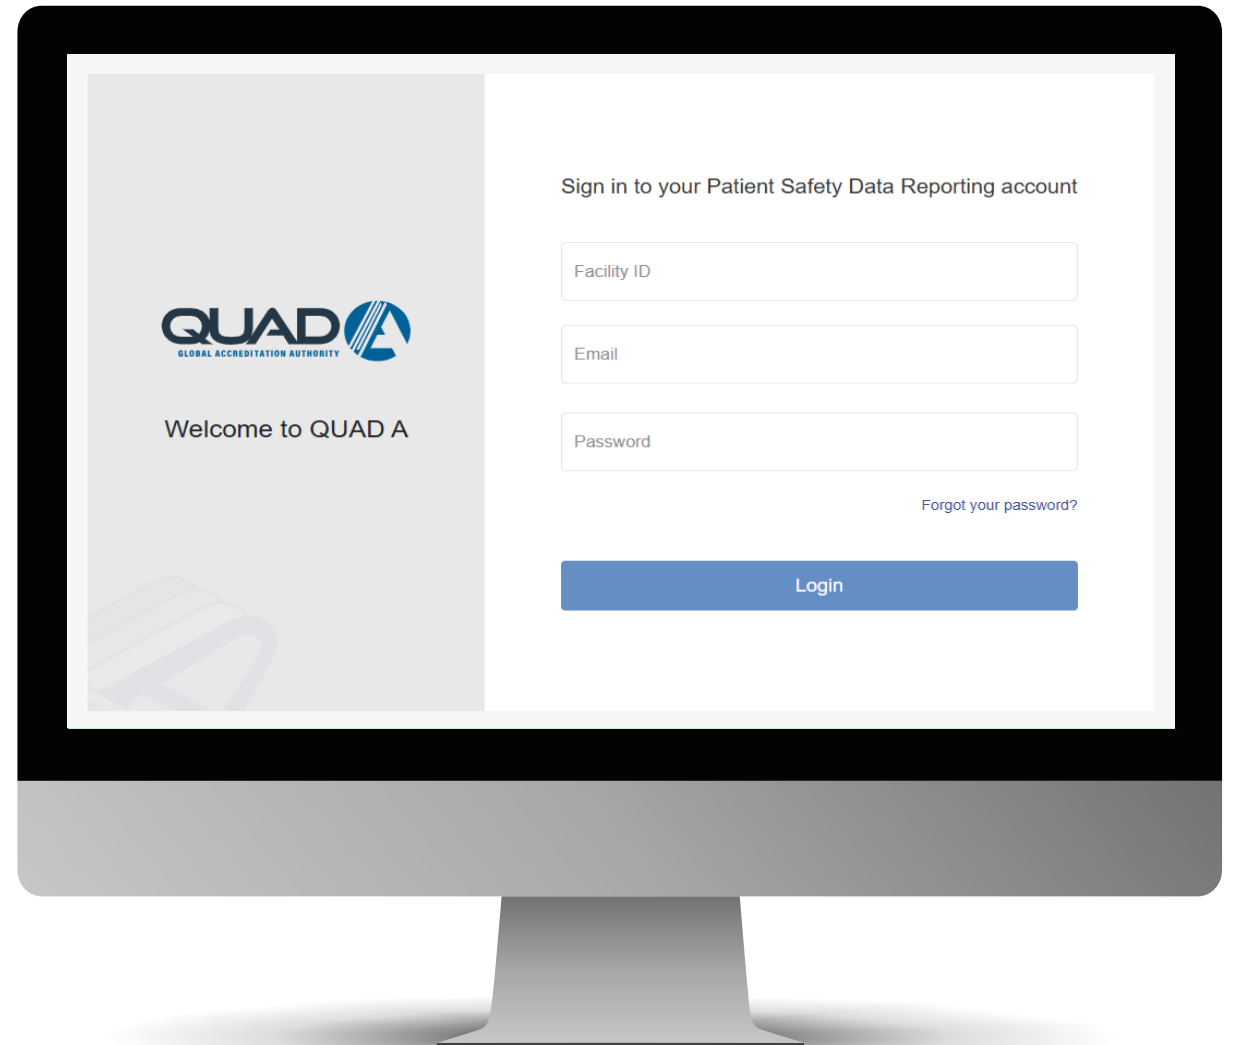

Deadline to Report: January 15th

- Four fixed reporting periods (quarters) per calendar year
- Fifteen-day grace period following the conclusion of each period to submit mandatory data
- Non-compliance results in probation and additional fees

SUBMITTING YOUR CASES

- **Case submissions must be submitted by designated PSDR Administrator**
 - PSDR Administrator Authorization Form must be filled out and submitted by the Medical Director
- **All cases must still be entered directly into the QUAD A online portal**
 - QUAD A offices do not accept paper forms
 - Must fill in all required fields to submit PSDR random cases
- **Failure to comply with reporting deadlines results in:**
 - 60-day probation period
 - \$100 late fee per non-compliant provider

PSDR.QUADA.ORG

WHICH CASES NEED TO BE REPORTED?

GUIDELINES

- **Each surgeon/proceduralist must submit 3 cases per period**
 - The 1st case performed by surgeon/proceduralist in each month of the reporting period are the cases submitted for PSDR
- **A total of 12 cases must be submitted annually**
 - These cases should correspond to the 1st case performed each month throughout the year
- **Any cases involving unanticipated sequelae should be reported**

- **Templates available on QUAD A website**
 - Unanticipated sequela = adverse advent
 - Verbiage used interchangeably
 - These resources are available to help your facility understand the information that will be captured when submitting in the PSDR portal
- **Use these templates as internal tool at your facility**
 - Assists in record-keeping
 - Outlines all information that you will need to fill in for each submission within the portal

GOOD REPORTING

PSDR REPORTING: REPORTING A DEATH

- Any death occurring in an accredited facility or any death occurring within thirty (30) days of a procedure performed in an accredited facility must be reported within five (5) business days after the facility is notified or otherwise becomes aware of that death.
- Report as an Adverse Event in the online Patient Safety Data Reporting portal.
- QUAD A office will not accept paper forms or email notifications as an official way to report a death of a patient.

EXCEPTIONS TO THE RULES

1. ZERO CASES PER MONTH

- If a surgeon/proceduralist has not performed at least one case per month making up the reporting period in question, they can select a case from other months within the period to report

2. LESS THAN 3 CASES PER REPORTING PERIOD

- Must fill out Exemption Form on Quad A's website or PSDR portal.
- All surgeries and/or procedures performed by surgeon/proceduralist with less than 3 cases should be reported online in the PSDR portal for that period

PSDR REPORTING: EXEMPTION FORM

- Send QUAD A team an Exemption Form before the quarterly deadline to helpdesk@quada.org
- All PSDR forms are found on the main website www.quada.org or in PSDR Portal
 - Website: Homepage > Resources & Education > PSDR > PSDR Documents
 - PSDR Portal: Login Page > Dashboard > Forms (on lefthand side).
- This includes physicians that have been removed from 'Active Status' during this reporting period.

PSDR VS PEER REVIEW: WHAT'S THE DIFFERENCE?

Patients First. *Always.*

PSDR VS PEER REVIEW

PSDR

- Quarterly online data submission to Quad A
- Must include 3 random cases per quarter per surgeon
- Must include submission of all unanticipated sequela

PEER REVIEW

- **Facility-based meeting to improve quality and safety of care**
- Quarterly or Semi-Annual peer review meeting conducted based on case-load
 - Semi-Annual Peer Review Meeting: <50 cases per month
 - Quarterly Peer Review Meeting: >50 cases per month
- **At a minimum, the quarterly sample size for Peer Review is 10% of the average monthly case volume for the quarter, which includes the 1st case of each month for each surgeon/proceduralist.**
- Performed by a surgeon other than the operating surgeon, unless otherwise specified by state regulations

PSDR: WHY IS IT IMPORTANT?

Patients First. *Always.*

THE IMPORTANCE OF PSDR

Collects Statistics For Quality Assurance:

- Improves Patient Care
- Establishes quantifiable safety data
 - 12 cases per surgeon per year
- Drives standards revisions
- Contributes to scholarship and safety

All Adverse Events

- Adverse events 1/207 procedures .34%
- Hematoma .11%
- Infection .05%
- VTE .01%
- Death 1/55,032 procedures or .0018%
- VTE: 37% of deaths

PSDR IN THE LITERATURE

SAVING LIVES:

The Key to Preventing a Common Postoperative Complication

OTHER RESEARCH & OUTCOMES

Harvard researchers have maximized the available PSDR data:

- “National Mortality Rates after Outpatient Cosmetic Surgery and Low Rates of Perioperative Deep Vein Thrombosis Screening and Prophylaxis.” Plastic and Reconstructive Surgery, 142(1), 90-98.
- “Quantifying the Crisis: Opioid-Related Adverse Events in Outpatient Ambulatory Plastic Surgery” Plastic and Reconstructive Surgery 145(3):687-695
- “Complications from Fat Grafting and Gluteal Augmentation in Outpatient Plastic Surgery: An Analysis of American Association for Accreditation of Ambulatory Surgical Facilities”
- “Liposuction Complications in the Outpatient Setting: A National Analysis of 246,119 Cases in Accredited Ambulatory Surgery Facilities”
- “How Altra Medic Hospital in Guatemala Overcame”

YOUR QUESTIONS, OUR ANSWERS

Patients First. *Always.*

QUESTION:

How do you use the data submitted in PSDR portal? Can my facility's data be identified based on submission information?

QUESTION:

Since PSDR is technically “research” can we opt out of submitting on a quarterly basis?

QUESTION:

Can we request a copy of the data submitted for PSDR?
